No-me Appointed Agent for ROTOCONTROL in Scandinavia

ROTOCONTROL joins No-me to meet Danish printers at the Danish Flexo Forum March 30-31.

LINAU, Germany (March 7, 2017) – ROTOCONTROL, [a manufacturer of leading-edge label slitter/rewinder inspection and finishing machines](#) has named Nordic Media (No-me) as its local agent for Denmark, Iceland, Norway and Sweden. Marco Aengenvoort, managing director of ROTOCONTROL will join Glenn Büttner, owner of No-me March 30-31 to meet local flexographic printers at the Danish Flexo Forum.

[No-me](#) brings over 30 years sales experience of products for the label and packaging printing and plastics industries, with a focus on flexo, letterpress, and pad printing, in addition to plastic extrusion. Büttner's educational background is in the field of graphic design.

“ROTOCONTROL is known for providing high-quality, innovative machines with advanced print and finishing customization capabilities as stand-alone or integrated in-line with presses and other equipment,” comments Büttner. “Their close proximity (Hamburg, Germany) is also advantageous for Scandinavian customer demonstrations and support. We are pleased to be appointed as the local agent for ROTOCONTROL and look forward to joint meetings with leading Danish printers at the Dansk Flexo Forum.”

Glenn Büttner, owner of No-me

No-me has built an impressive partner portfolio of Glunz & Jensen, Asahi Photopolymer, GKS International, Jet Europe, and SPG Prints, and was recently appointed as the agent for Bobst and Polywest.

Founded in 1988, the Danish Flexo Forum (www.danskflexoforum.dk) is an industry association with about 170 members in 75 companies representing a wide range of different branches of printers and suppliers within the flexo industry. The aim of the association is to jointly promote its members' position and capabilities within the industry through high level courses and seminars.

About ROTOCONTROL GmbH

ROTOCONTROL designs and manufactures leading-edge finishing machines for label inspection, slitting, rewinding, die cutting, overprinting, digital and booklet printed labels, for converters in the narrow web industry. Available globally, ROTOCONTROL offers machines from smaller basic rewinders to feature-rich, sophisticated models with multiple options featuring S-Drive servo technology enabling maximum web control for the most delicate film and foil materials.

Headquartered in Linau (near Hamburg, Germany), ROTOCONTROL maintains the highest level of product quality through ease of use, absolute control and flexibility with a focus on operator safety and efficiency. ROTOCONTROL is the partner of choice in the finishing of label products.

Speed is Nothing without Control.
