ROTOCONTROL signs Partnership agreement with CME

ROTOCONTROL is now overseeing the Marketing and Sales of high-speed inspection, cutting and rewinding machines and accessories engineered by CME Cleeberger Maschinenentwicklung GmbH, further serving the label industry.

Ahrensburg, Germany (April 8, 2009) - Marco Aengenvoort, ROTOCONTROL Managing Director, today announced the signed Partnership agreement with CME Cleeberger Maschinenentwicklung GmbH. The partnership provides ROTOCONTROL with Marketing and Sales responsibility for the CME dual rewind semi-automatic Turrets (DRM) enhancing the current offering of ROTOCONTROL high-speed inspection, cutting and rewinding machines for the label industry.

“CME provides next-generation research and design expertise in machines and accessories that integrate well with our current RSI and RSC label finishing machines” states Marco Aengenvoort. “Their technology benefits our customer’s label applications by increasing product throughput and profitability.”

André Arabin, CME Managing Director, commented, “ROTOCONTROL is the partner of choice for CME technology, as they provide strong international Sales/Distribution, Marketing, and Service expertise. Combined with their current advanced high-speed inspection, cutting and rewinding machines, CME and ROTOCONTROL are well positioned to serve customers seeking the latest technology in print label applications”.

About CME Cleeberger Maschinenentwicklung GmbH

CME specializes in the design and engineering of accessories for high-speed inspection, cutting and rewinding machines serving the printing and paper industry. CME developed the dual rewind semi-automatic Turrets (DRM), which is marketed by ROTOCONTROL. Founded in 1999 and located in Langgöns-Cleeberg (Frankfurt am Main) CME is lead by the sons of Dieter Arabin, founder of the former Arsoma Druckmaschinen GmbH (Gallus).
