## **Reslan Orders Second ROTOCONTROL RSC Slitter Rewinder Inspection Machine**

*Reslan is the leading label producing company serving the Turkish label sector*

Ahrensburg, Germany (January 5, 2011) – Ralph Beier, ROTOCONTROL International Sales Manager, today announced the receipt of a second order for a RSC Slitter Rewinder Inspection Machine from Reslan Labels Inc., the leading label producing company serving the Turkish label sector. The order was placed by Feyzi A.S., the local Agent for ROTOCONTROL leading edge inspection, slitting, rewinding and die cutting finishing machines in Turkey.

Omer Surucuer, Sales Engineer of Feyzi A.S. commented: “We recently met with Reslan Owner Mr. Sedat Soysev, General Manager Mr. Alican Erzi, and Plant Manager Mrs. Neşe Görü. They were pleased with production results from their first ROTOCONTROL RSC 330mm machine equipped with a Nikka Vision System and how quickly their operators embraced the new machine. The timely installation, training and technical support provided by Feyzi A.S. also added to their overall satisfaction of investing in ROTOCONTROL technology. As a result, Mr. Sedat Soysev again selected ROTOCONTROL for their new 440mm wide control machine requirement, knowing they could continue to count on Feyzi A.S. for timely and efficient after-sales service.”

The ROTOCONTROL RSC series offers a full suite of standard features in an economical, compact machine designed to maximize operator efficiency. Standard features such as cartridge slitting system, vertical inspection zone, automatic tension control, S-Drive servo driven operation, job save and simple, functional controls means more time producing labels and less time in set up.

#### **About ROTOCONTROL**

ROTOCONTROL designs and manufactures leading edge inspection, slitting, rewinding and die cutting finishing machines for the narrow web industry. Available globally, ROTOCONTROL offers machines from smaller basic rewinders to feature rich, sophisticated models with multiple options. All utilize S-Drive Servo Technology enabling maximum web control for the most delicate film and foil materials. Headquartered in Ahrensburg (Hamburg), Germany ROTOCONTROL maintains the highest level of product quality through ease of use, absolute control and flexibility. ROTOCONTROL is the partner of choice in the finishing of label products.

**Speed is Nothing without Control.**
