ROTOCON to Exhibit ROTOCONTROL RSC Finishing Machine at Propak Africa 2013

The exhibition will be held 12-15 March 2013 at the Expo Centre, Nasrec, in Johannesburg

Ahrensburg, Germany (March 7, 2013) – ROTOCONTROL today announced its debut at Propak Africa held 12-15 March 2013 at the Expo Centre at Nasrec in Johannesburg. In hall 7 stand D06 ROTOCON, the local Agent for ROTOCONTROL throughout South Africa, will be demonstrating a ROTOCONTROL RSC 340mm web width vertical inspection slitter/rewinder equipped with an AVT Helios II 100% vision inspection system.

Propak Africa is the largest and most successful packaging, food processing, plastics, printing and labelling exhibition held on the African continent. In addition to ROTOCONTROL, ROTOCON will also represent MPS unique printing presses that aim at high-end label, flexible packaging and carton board markets, Pantec GS Systems sophisticated in-line refining solutions and AVT 100% automatic inspection solutions.

The ROTOCONTROL RSC slitter/rewinder finishing machine series offers a full suite of standard features in an economical, compact, extremely robust machine designed to maximize operator efficiency and provide more time to produce labels with minimal time in set-up. To date, ROTOCONTROL has sold twenty-three finishing machines into South Africa.

“We are honoured to have our RSC finishing machine in the ROTOCON stand at Propak Africa,” comments Michael Aengenvoort, Business Development Manager of ROTOCONTROL. “South Africa is a very successful market for us, with expected continued growth. I look forward to seeing our existing customers and meeting new leading converters and printers.”

Companies interested in attending Propak Africa 2013 are invited to pre-register for free entry at www.propakafrika.co.za.

About ROTOCONTROL

ROTOCONTROL designs and manufactures leading edge finishing machines for inspection, slitting, rewinding, die cutting, overprinting, digital labels and booklet labels for converters in the narrow web industry. Available globally, ROTOCONTROL offers machines from smaller basic rewinders to feature-rich, sophisticated models with multiple options featuring S-Drive Servo Technology enabling maximum web control for the most delicate film and foil materials.

Headquartered in Ahrensburg (Hamburg), Germany ROTOCONTROL maintains the highest level of product quality through ease of use, absolute control and flexibility with a focus on operator safety and efficiency. ROTOCONTROL is the partner of choice in the finishing of label products.

Speed is Nothing without Control.
