Labelco International Selects LeoMat Practice Fully-automatic Slitting/Rewinding Machine

Order placed by Heidelberg Gulf Est., now representing ROTOCONTROL and LeoMat leading edge finishing machines in the United Arab Emirates

Ahrensburg, Germany (December 5, 2012) – ROTOCONTROL today announced the receipt of a purchase order from Labelco International, a leading label supplier located in the United Arab Emirates, for a LeoMat Practice fully-automatic slitting/rewinding machine. The order was placed by Heidelberg Gulf Est., now representing ROTOCONTROL and LeoMat leading edge finishing machines for inspection, slitting, rewinding, die cutting, overprinting, digital labels and booklet labels in the United Arab Emirates.

The LeoMat Practice is a fully-automatic slitting/rewinding machine, developed and proven in practical applications with self-adhesive labels, processing and blister foils, and paper. Available in all current working widths up to 530mm, the machine features a very rugged construction for high reliability and multi-shift operation normally reserved for much higher priced equipment.

Labelco International offers in-house design and production for an integrated, one-stop service for all label requirements including variable data printing on the label, fabric and inks which are Oeko-Tex approved providing a fully environmentally friendly labeling concept, and ultrasonic cut labels for added softness. The company also produces a vast assortment of self-adhesive labels for a wide range of applications in many industries including clothing, cosmetics, food and beverage, promotional and electrical.

LeoMat Practice fully-automatic slitting/rewinding machine

“We are pleased to now represent both ROTOCONTROL and LeoMat brands of finishing machines in the United Arab Emirates,” comments Prakash Govindarao, Sales Engineer for Heidelberg Gulf Est. “ROTOCONTROL offers a broad selection of finishing solutions from value-priced and feature-rich slitter/rewinders to higher-end die cutting, digital and booklet label finishing machines, meeting the needs of converters in a range applications. We look forward to increasing our market share in the Middle East with ROTOCONTROL.”
