## **Flexcoat Opts For Two ROTOCONTROL RSP Single Pass 100% Security Inspection Machines**

*Machines will benefit the Brazilian Converter's 100% inspection of pharmaceutical labels*

Ahrensburg, Germany (February 24, 2012) – ROTOCONTROL today announced another two machines sold into Brazil to Flexcoat Produtos Auto-adesivos, a highly regarded company in the Brazilian Label Market. Ordered were two RSP Single Pass 100% Security Inspection Machines, subsequent to an on-site visit from Marcelo Zandomenico, of MZ Maquinas, the ROTOCONTROL Agent for Brazil and Michael Aengenvoort, Business Development Manager for ROTOCONTROL.

The ROTOCONTROL RSP series machines are built with an extremely small footprint (only 1.2 x 2.6 meters of floor space plus the moveable control panel) and are specifically designed for compliance with the most demanding security label inspection and finishing applications. Flexcoat plans to run 100% inspection of pharmaceutical labels and other production runs with their two RSP finishing machines investment.

"The production intended for the RSP inspection machines requires secure inspection, including re-inspection when labels are reworked. We evaluated other alternatives, but opted for ROTOCONTROL as their machines are solidly built and fully integrated with the latest inspection technology. The re-inspection mode will assure our Pharmaceutical customers 100% compliant product" commented Nilson Barrantes, Managing Director of Flexcoat.

Located in the city of Louveira, Flexcoat has two modern coaters responsible for self-adhesive laminating which accurately controls all features of the company's products during manufacturing. Flexcoat manufactures products specific to each customer's need and in markets including pharmaceutical, automotive, food, cosmetic, fridge, and electronic. Acrylic and hot melt adhesives (rubber) in various weights, front film and paper, polyester liners, and glassine and couche paper are offered. Flexcoat is ISO 9001 certified by Bureau Veritas Quality International (BVQI).
