ROTOCONTROL To Showcase Multiprint Labels RSC Slitter/Rewinder At Labelexpo Europe

Multiprint Labels visited ROTOCONTROL Headquarters for on-site Machine Acceptance

Ahrensburg, Germany (August 31, 2011) – ROTOCONTROL announced the successful machine acceptance from Multiprint Labels, a leading Converter from South Africa, for an RSC Slitter/Rewinder 340mm web width with an added Die Station. On-site for the acceptance was Michael Harrison, Procurement Manager of Multiprint Labels and Patrick Aengenvoort, Director from ROTOTEC, the local Agent for ROTOCONTROL throughout South Africa. Multiprint Labels has agreed to have their RSC Slitter/Rewinder machine showcased at Labelexpo Europe in Brussels 28 September - 1 October 2011 in ROTOCONTROL Stand 7M105.

Ralph Beier, ROTOCONTROL International Sales Manager commented: “This machine is completely film compatible. It features a dual rewind option including rubber lay-on rollers, anti-static bars, and web advance allowing the rewinding of all materials including unsupported film. Loaded with a Die Station, an innovative addition to the RSC platform, this leading-edge finishing machine will generate a lot of interest at Labelexpo Europe.”

Chris Bobbert, Multiprint Labels Managing Director and General Manager commented: “During the on-site machine acceptance it became apparent that adding a few new options to the machine would pay significant dividends for long-term flexibility and operator efficiency. This proved to us again that ROTOCONTROL is dedicated to delivering finishing machines with the right technology to maximize our successful long-term investment. We are pleased to have our machine demonstrated at Labelexpo Europe in Brussels.”

Headquartered in Johannesburg, Multiprint Labels (Pty) Ltd is one of the leading Flexographic printing companies in South Africa, specialising in hot foil label printing, self adhesive labels, unsupported films and papers, tags, hot and cold foiling, numbering, coupons, sheeted labels, and peel and read labels.
