## **ROTOCONTROL Secures First Order In GCC From Kimoha**

*Order received for an RSC Slitter/Rewinder Inspection Machine with a Nikka Research Vision System*

Ahrensburg, Germany (July 20, 2011) – ROTOCONTROL today announced the receipt of the first purchase order in the Gulf Cooperation Council (GCC) from Kimoha, a pioneer in the manufacturing and marketing of Self Adhesive Labels and Flexibles headquartered in Dubai.

Mr. Michael Aengenvoort, ROTOCONTROL Business Development Manager, met with Mr. Vinesh Bhimani, Managing Director and Mr. Wolfram Gruening, Executive Director on-site at Kimoha. Ordered was an RSC Slitter/Rewinder Inspection Machine with a fully integrated Vision System from Nikka Research.

Mr. Vinesh Bhimani, Managing Director of Kimoha commented: "I originally met with ROTOCONTROL at Labelexpo India. As a result of increase in production demand, we needed to expand our Finishing Machine capacity. We opted for the ROTOCONTROL RSC due to its integration with the Nikka Research Vision System, the Vacuum Splice Table option enhancing Operator efficiency, and the 100% servo Bosch Rexroth Drives for our tension critical material."

Mr. Wolfram Gruening, Executive Director of Kimoha commented: "ROTOCONTROL finishing machines are designed and built with the innovative technology and consideration of Operator use. We are delighted to invest in ROTOCONTROL."

With more than two decades of successful performance and commitment to excellence, Kimoha is a pioneer in the manufacturing and marketing of Self Adhesive Labels and Flexibles in addition to other complementary divisions including Auto ID and Aviation. Headquartered in Dubai, Kimoha is focused on environmental sustainability, quality product, and service.
