## **ROTOCONTROL invited to Showcase RSC Slitter Rewinder at Graficon-GIDUE Open House**

*The Graficon-GIDUE Open-House to be held March 15 – 17th 2011 in Wittenbach/St.Gallen, Switzerland*

Ahrensburg, Germany (February 17, 2011) – ROTOCONTROL today announced its participation at the Graficon-GIDUE Open House to be held March 15 – 17th 2011 in Wittenbach/St.Gallen, Switzerland. To be demonstrated at the event is the ROTOCONTROL RSC slitter/rewinder inspection machine featuring a moveable operator console with touch screen technology, advanced cartridge slitting system, full servo control and vacuum vertical splice table with integrated waste rewind.

The Graficon-GIDUE Open House is an opportunity to introduce German, Swiss and Austrian Converters to some of the most advanced technologies in the label and packaging industry. Several technology suppliers including Graficon, GIDUE, Kocher+Beck, Herma, and Siegwerk are showing machines, live demonstrations and new product introductions.

Marco Aengenvoort, ROTOCONTROL Managing Director, commented: "ROTOCONTROL is honoured to be invited to showcase our finishing technology along with other leading suppliers at this key industry event. I personally look forward to meeting with Converters attending the event and learning more about their application requirements for label finishing".

**About ROTOCONTROL**

ROTOCONTROL designs and manufactures leading edge inspection, slitting, rewinding and die cutting finishing machines for the narrow web industry. Available globally, ROTOCONTROL offers machines from smaller basic rewinders to feature rich, sophisticated models with multiple options. All utilize S-Drive Servo Technology enabling maximum web control for the most delicate film and foil materials. Headquartered in Ahrensburg (Hamburg), Germany ROTOCONTROL maintains the highest level of product quality through ease of use, absolute control and flexibility. ROTOCONTROL is the partner of choice in the finishing of label products.

**Speed is Nothing without Control.**
