ROTOCONTROL unveiling 100% Security Inspection Machine at Labelexpo Americas 2010

In the AVT Stand, ROTOCONTROL will demonstrate features and benefits of the RSP Single Pass 100% Security Inspection Machine

Ahrensburg, Germany (August 25, 2010) – At Labelexpo Americas 2010 ROTOCONTROL is set to unveil the RSP Single Pass 100% Security Inspection Machine in the AVT Stand, and will be running live material demonstrations with the AVT Helios II 100% Vision System.

Specifically designed for compliance with the most demanding security label inspection and finishing applications, the ROTOCONTROL RSP machine also features an extremely small footprint: only 1.2 x 2.6 meters of floor space plus the moveable control panel.

The RSP machines are available in 340, 440 and 540mm web widths with all of the options normally associated with the RSC Slitter/Rewinder Inspection machines including large capacity separate unwind, shear and razor slitting cartridges, waste wind-up, strobe illumination and multiple shaft sizes.

Marco Aengenvoort, Managing Director of ROTOCONTROL commented: "We have invested a number of months carefully planning the design and performance of the RSP, as it is a strategic product for us world-wide". "With the offering of Full and Controlled Compliance along with High Speed and 100% Vision Inspection, we are well positioned to meet the compliance needs of Converters in this market".

About ROTOCONTROL

ROTOCONTROL designs and manufactures leading edge inspection, slitting, rewinding and die cutting finishing machines for the narrow web industry. Available globally, ROTOCONTROL offers machines from smaller basic rewinders to feature rich, sophisticated models with multiple options. All utilize S-Drive Servo Technology enabling maximum web control for the most delicate film and foil materials. Headquartered in Ahrensburg (Hamburg), Germany ROTOCONTROL maintains the highest level of product quality through ease of use, absolute control and flexibility. ROTOCONTROL is the partner of choice in the finishing of label products.

Speed is Nothing without Control.
