ROTOCONTROL Signs New Agents in Spain and South America

HTGRAF is now representing ROTOCONTROL in Spain and Wiprint in Argentina, Chile, Paraguay and Uruguay.

LINAU, Germany (September 14, 2015) – ROTOCONTROL, [a manufacturer of leading-edge finishing machines](#) today announced the appointment of two new agents in Spain and South America. HTGRAF is now representing ROTOCONTROL in Spain and Wiprint in Argentina, Chile, Paraguay and Uruguay, joining an extensive world-wide network of ROTOCONTROL agents.

HTGRAF is an experienced company, offering a wide range of printing products and services specially oriented to label and packaging manufactures. The company represents leading industry brands in Spain including Screen Europe, Iwasaki, Presstek and Xerox. Wiprint S.A. is a newly formed Argentinian corporation that began operations earlier this year, bringing years of finance, administration and technology experience in the graphic industry. Their product portfolio includes photopolymers, equipment and inks.

Nestor Rostagno, sales and technical director of Wiprint comments: "ROTOCONTROL is a well-known brand in our territory for high quality, performance and technology. With this product strength, we strongly believe that our experience in understanding customer needs and knowledge of other equipment offered in the market will position ROTOCONTROL as the leading company in this sector very quickly."

Both HTGRAF and Wiprint S.A. will be officially introduced in the ROTOCONTROL stands 7D42 & 7B45 at Labelexpo Europe. ROTOCONTROL will be demonstrating five leading-edge machines for label inspection and finishing: the next generation DT-series (digital finishing), BL-series (high speed offline solution for ECL and booklet labels), RSP-series (pharmaceutical security), RSC-series (inspection, slitter/rewinder), and the FC-series (FastChange 4-spindle turret rewinder).

About ROTOCONTROL GmbH

ROTOCONTROL designs and manufactures leading-edge finishing machines for label inspection, slitting, rewinding, die cutting, overprinting, digital and booklet printed labels, for converters in the narrow web industry. Available globally, ROTOCONTROL offers machines from smaller basic rewinders to feature-rich, sophisticated models with multiple options featuring S-Drive servo technology enabling maximum web control for the most delicate film and foil materials.

Headquartered in Linau (near Hamburg, Germany), ROTOCONTROL maintains the highest level of product quality through ease of use, absolute control and flexibility with a focus on operator safety and efficiency. ROTOCONTROL is the partner of choice in the finishing of label products.

Speed is Nothing without Control.
