Printcon Now Representing ROTOCONTROL in Southern Germany, Austria and Switzerland

Partnership was finalized at Labelexpo Europe.

LINAU, Germany (January 17, 2018) – ROTOCONTROL has appointed Printcon as the local representative in Southern Germany, Austria and Switzerland for its extensive line-up of finishing machines for label inspection, slitting, rewinding, die cutting, overprinting, digital and booklet printed labels. The partnership agreement was finalized during the 2017 edition of Labelexpo Europe on the ROTOCONTROL stand.

“The DACH regions are a large and important market for ROTOCONTROL, as we have built a number of long-standing relationships with customers from these countries over many years,” said Marco Aengenvoort, managing director of ROTOCONTROL International GmbH. “Printcon’s years of experience in the printing industry and synergy through its representation of highly reputable MPS presses also in these regions will provide a strong local presence of ROTOCONTROL.”

Printcon, led by Markus Pieper and Martin Vogel, exclusively represent MPS, Matho Konstruktion & Maschinenbau GmbH and ROTOCONTROL for Southern Germany (South Hesse, Rhineland-Palatinate, Saarland, Baden-Württemberg, Bavaria), Austria and Switzerland. Their strengths are in consulting printers with diverse production and processing methods to provide optimum solutions and service of narrow web equipment.

Markus Pieper (Printcon), Marco Aengenvoort (ROTOCONTROL), & Martin Vogel (Printcon)

“ROTOCONTROL has established a strong reputation of providing advanced print and finishing machines with advanced customization capabilities, and bring the advantage of manufacturing in Germany,” said Markus Pieper, managing director of Printcon. “We look forward to a successful co-operation and further building the ROTOCONTROL brand throughout the DACH regions.”

About Rotocontrol International GmbH

ROTOCONTROL, a wholly owned subsidiary of EMT International (www.emtinternational.com), designs and manufactures leading-edge finishing machines for label inspection, slitting, rewinding, die cutting, overprinting, digital and booklet printed labels, for converters in the narrow web industry. Available globally, ROTOCONTROL offers machines from smaller basic rewinders to feature-rich, sophisticated models with multiple options featuring S-Drive servo technology enabling maximum web control for the most delicate film and foil materials.

With production facilities, sales, and service in Germany and the USA, ROTOCONTROL maintains the highest level of product quality through ease of use, absolute control and flexibility with a focus on operator safety and efficiency. ROTOCONTROL is the partner of choice in the finishing of label products.
