ROTOCONTROL Appoints New Partner in Benelux

Albyco is a dominant player in the Dutch digital graphic market.

SIEK, Germany (May 18, 2021) – ROTOCONTROL has appointed Albyco as its new distribution partner for the Netherlands, Belgium, and Luxembourg. Under the agreement, Albyco will locally represent the range of ROTOCONTROL equipment for label finishing, booklet production, and hybrid printing including the ECOLINE suite of cost-effective finishing machines.

With the appointment of the ROTOCONTROL brand, Albyco expands its print and distribution expertise into the label industry.

“We strongly believe the label industry will grow quickly in line with the packaging industry,” said Jos van Uum, managing director at Albyco. “Labeling is closely related to the digital graphic and digital printing industry so to enable further growth within the company obtaining the ROTOCONTROL distributorship in the Benelux is a logical and viable next step for Albyco.”

Jos van Uum, managing director at Albyco

“With their experience in high-quality print finishing machines and a fully equipped technical service department, Albyco will provide valuable local support to our customers in the Benelux,” said Marco Aengenvoort, managing director at ROTOCONTROL.

About Albyco Nederland B.V.

Albyco is a dominant player in the Dutch digital graphic printing market from years of exclusive distributorships and consumables. For more than 25 years, Albyco also supplies volume sales of its own consumables and smaller graphic equipment range through distributors in Europe from its central distribution centre in Oosterhout.

Renowned industry brands represented by Albyco include Duplo, Multigraf, GMP, Stago, Fastbind, Powis Parker, and ROTOCONTROL.

About Rotocontrol International GmbH

ROTOCONTROL, a wholly owned subsidiary of EMT International (www.emtinternational.com), designs and manufactures leading-edge finishing machines for label inspection, slitting, rewinding, die cutting, overprinting, digital and booklet printed labels, for converters in the narrow web industry. Available globally, ROTOCONTROL offers machines from smaller basic rewinders to feature-rich, sophisticated models with multiple options featuring S-Drive servo technology enabling maximum web control for the most delicate film and foil materials.

With facilities in Germany and the USA, ROTOCONTROL maintains the highest level of product quality through ease of use, absolute control and flexibility with a focus on operator safety and

efficiency. A large customer support team is based at both facilities providing 24x7 remote service. ROTOCONTROL is the partner of choice in the finishing of label products.
