New Headquarters for ROTOCONTROL

At the end of this month ROTOCONTROL will move to a new location with increased manufacturing capacity.

Ahrensburg, Germany (May 23, 2013) – ROTOCONTROL, a manufacturer of leading-edge slitter/rewinder inspection machines, today announced the upcoming move of its current German headquarters in Ahrensburg to nearby Trittau at the end of this month. Located near Hamburg, the new location provides additional office and manufacturing capacity, from the current 1000 m² space to a 5000 m² area, to accommodate the growing number of ROTOCONTROL and LeoMat employees and increased production demand.

“ROTOCONTROL has experienced tremendous growth in the last four years,” comments Marco Aengenvoort, Managing Director of ROTOCONTROL. “With the successful early acceptance and continued demand of our finishing machines in the market and integration of the LeoMat brand, we have maximized our current office and manufacturing capacity. Our new location provides increased manufacturing and engineering capacity to accommodate future growth.”

Currently, there are 42 ROTOCONTROL and LeoMat finishing machines on order with a product mix including the RSC slitter/rewinder, RSP 100% security inspection, RSD die cutting, slitting/rewinding, LeoMat Practice fully-automatic slitting/rewinding and LeoMat Digitakt fully modular, versatile finishing machine designed to complement digital printing operations. The machines will be shipping to South Africa, Chile, Russia, Israel, Columbia, Turkey, Poland, Belgium, Indonesia, Brazil, Netherlands, Spain and Germany.

New Headquarters for ROTOCONTROL

The address of the new ROTOCONTROL headquarters as of June 3, 2013 will be Hamburger Str. 82, 22946 Trittau, Germany.

About ROTOCONTROL

ROTOCONTROL designs and manufactures leading edge finishing machines for inspection, slitting, rewinding, die cutting, overprinting, digital labels and booklet labels for converters in the narrow web industry. Available globally, ROTOCONTROL offers machines from smaller basic rewinders to feature-rich, sophisticated models with multiple options featuring S-Drive Servo Technology enabling maximum web control for the most delicate film and foil materials.

Headquartered in Ahrensburg (Hamburg), Germany ROTOCONTROL maintains the highest level of product quality through ease of use, absolute control and flexibility with a focus on operator safety and efficiency. ROTOCONTROL is the partner of choice in the finishing of label products.

Speed is Nothing without Control.
