Successful Installation of ROTOCONTROL RSC Finishing Machine at Noelex Labels

Installation led by ROTOCON, representing ROTOCONTROL in South Africa

CAPE TOWN, South Africa (February 6, 2013) – ROTOCON today announced the successful installation of a ROTOCONTROL RSC slitter/rewinder 340mm web width finishing machine equipped with die station and a Nikka Research ALIS inspection system at Noelex Labels, a South African converter. The installation was led by ROTOCON, representing ROTOCONTROL in South Africa.

The ROTOCONTROL RSC slitter/rewinder finishing machine series offers a full suite of standard features in an economical, compact, extremely robust machine designed to maximize operator efficiency and provide more time to produce labels with minimal time in set-up.

Noelex Labels is a well-established label printing factory situated in Port Elizabeth, South Africa. With state of the art equipment they are able to produce a variety of high quality labels from full colour digital to six colour full UV. The company supplies a large variety of industries throughout South Africa and a number of export clients.
