ROTOCONTROL To Exhibit At First Edition Of Label Summit Africa 2012

Label Summit Africa will take place on 19 - 20 March 2012 in Cape Town

Ahrensburg, Germany (March 9, 2012) – ROTOCONTROL today announced the company's participation in the first edition of Label Summit Africa, which will take place 19 - 20 March 2012 in Cape Town, South Africa. Representatives from ROTOCONTROL and ROTOTEC, the local Agent for ROTOCONTROL throughout South Africa will be in attendance.

In Stand 5 ROTOCONTROL will discuss and present machine videos of the company's leading-edge Finishing technology including the RSC Vertical Inspection Slitter/Rewinder, RSP Single Pass 100% Security Inspection, and RSD Die Cutting. Also presented will be the ROTOTEC local offering of precision engraving and die sinking including Print Cylinders, Anvil Rollers, Air-plus-cut, Magnetic Cylinders, Removable Blade-Cutter, EDP (sprocket punch) Cutting Dies, Gears and Flexible Cutting Dies.

Michael Aengenvoort, Business Development Manager of ROTOCONTROL commented: "We are honoured to be a part of the premier edition of Label Summit Africa. Numerous ROTOCONTROL finishing machines are operating on production floors throughout South Africa, and the market continues to show significant growth potential. The Summit is an ideal opportunity to bring together this dynamic group of Converters throughout Africa."

Label Summit Africa 2012 is a new two-day conference and table-top exhibition for the African label and package printing industry. Taking place on 19-20 March at the Cape Town International Convention Centre, Label Summit Africa 2012 will include conference sessions with local and international experts, a table-top exhibition with leading suppliers and plenty of networking opportunities.

About ROTOCONTROL

ROTOCONTROL designs and manufactures leading edge inspection, slitting, rewinding and die cutting finishing machines for the narrow web industry. Available globally, ROTOCONTROL offers machines from smaller basic rewinders to feature rich, sophisticated models with multiple options. All utilize S-Drive Servo Technology enabling maximum web control for the most delicate film and foil materials. With the recent acquisition of LeoMat, advanced products including booklet insertion and digital finishing are immediately available.

Headquartered in Ahrensburg (Hamburg), Germany ROTOCONTROL maintains the highest level of product quality through ease of use, absolute control and flexibility. ROTOCONTROL is the partner of choice in the finishing of label products.

Speed is Nothing without Control.
