ROTOCONTROL installs RSC Slitter Rewinder Inspection Machine at Advanced Labels

ROTOTEC continues to grow number of ROTOCONTROL installations throughout South Africa

Ahrensburg, Germany (September 8, 2010) – Ralph Beier, ROTOCONTROL International Sales Manager, today announced another successful installation in South Africa at Advanced Labels, who purchased a RSC Slitter Rewinder Inspection Machine equipped with a Vision System from AVT. The order was placed through the Director of ROTOTEC Pascal Aengenvoort, the local distributor in South Africa for ROTOCONTROL.

Advanced Labels is a labelling company specialising in Pharmaceutical, Home & Personal Care, Chemical, FMCG, 'Peel & Read' and 'Coupon' labels and is led by Mr. Richard Jones, Managing Director.

Mr. Richard Jones commented: "We evaluated other finishing machines and proposals, but chose ROTOCONTROL after seeing the machine in production at another ROTOCONTROL customer site. Since the installation, I am extremely impressed not only with the machine, but with the outstanding service I have received throughout the entire process from ROTOTEC."

The ROTOCONTROL RSC series offers a full suite of standard features in an economical, compact, extremely robust machine designed to maximize operator efficiency. Standard features such as cartridge slitting system, vertical inspection zone, automatic tension control, S-Drive servo driven operation, job save and simple, and functional controls means more time producing labels and less time in set up.

About ROTOCONTROL

ROTOCONTROL designs and manufactures leading edge inspection, slitting, rewinding and die cutting finishing machines for the narrow web industry. Available globally, ROTOCONTROL offers machines from smaller basic rewinders to feature rich, sophisticated models with multiple options. All utilize S-Drive Servo Technology enabling maximum web control for the most delicate film and foil materials. Headquartered in Ahrensburg (Hamburg), Germany ROTOCONTROL maintains the highest level of product quality through ease of use, absolute control and flexibility. ROTOCONTROL is the partner of choice in the finishing of label products.

Speed is Nothing without Control.
