▶ **Bosch Rexroth includes ROTOCONTROL on Control City tour in North Germany**

The Control City transport truck visited the ROTOCONTROL head office in Ahrensburg to showcase range of technology

Ahrensburg, Germany (June 30, 2010) – Marco Aengenvoort, Managing Director, today announced an on-site visit from Bosch Rexroth. The transportable “Control City” trailer showcased a range of drive and control solutions offered by Bosch Rexroth, which is currently incorporated into ROTOCONTROL leading edge inspection, slitting, rewinding and die cutting finishing machines. Also discussed were R&D projects for future ROTOCONTROL machine designs.

▶ “In order to provide the best possible tension and motion control for ROTOCONTROL machines, we have partnered with Bosch Rexroth for the supply of all our servo motors and controllers as well as pneumatics” states Markus Lübcke, ROTOCONTROL’s lead software and system engineer. “Having access to the superior quality and vast array of Bosch Rexroth products allows me to design machines that exceed our customer’s expectations for performance and reliability”.

Bosch Rexroth is one of the leading specialists worldwide in drive and control technology. The Drive & Control Company is the supplier of choice to more than 500,000 customers for high quality electrical, hydraulic, pneumatic and mechatronic components and systems. In more than 80 countries Rexroth is a reliable partner for its customers, supporting their production of safe and efficient machines and thereby contributing to the economical use of natural resources.
