ROTOCONTROL reports record month of machines entering production

As a result of positive order demand, ROTOCONTROL has increased manufacturing and technical staff

Ahrensburg, Germany (February 5, 2010) – Marco Aengenvoort, Managing Director, today reported that January was a record month for new orders for ROTOCONTROL machines being released to the production floor. Manufacturing and technical staff were increased to meet the current demand in booked and anticipated order activity in the coming months.

Machines currently being manufactured include the RSC Series Slitter Rewinder Inspection Machines, RSD Series Die Cutting/ Slitting Rewinding Machines, and recently introduced EDM200 Series Over-printing Press. These machines will fulfill customer orders received from Germany, Finland, South Africa, Italy, France, Spain, and Turkey.

“Since our product demonstrations at Labelexpo Europe, the customer orders that followed are extremely positive” states Marco Aengenvoort. “The increased momentum is reflected in our current production floor which will continue to grow this coming year. Also evident in the mix of machines ordered by customers, is our ability to also build product for unique and custom application requests.”

Manufacturing of ROTOCONTROL machines is out of Ahrensburg, Germany (near Hamburg).
