5i Conseil now providing training on integrated system with ROTOCONTROL, AVT and Domino

Training system features ROTOCONTROL RSI finishing machine, AVT Helios inspection system, and Domino Ink Jet

Ahrensburg, Germany (November 06, 2009) - Ralph Beier, International Sales Manager, today announced the installation of a complete inspection, slitting, rewinding machine system at 5i Conseil in France based on the ROTOCONTROL RSI 330 inspection machine, Advanced Vision Technology Helios inspection system, and Domino Ink Jet. The system provides hands-on training to Operators across Europe, and was initiated by TMT Labels, the France distributor of ROTOCONTROL product.

“ROTOCONTROL views the investment in training on inspection, slitting, rewinding machine technology critical to the narrow web industry and are honoured to be included in this initiative” states Ralph Beier. “We also appreciate the system integration and support provided by our partners including 5i Conseil, Advanced Vision Technology, Domino and especially TMT Labels who initiated and led the program”.

Eric JUDEK, Consultant with 5iConseil commented, “We are continually seeking state-of-the-art technology for our training facility. We train operators on a wide variety of materials and we can now include inspection and inkjet printing as well. TMT Labels recommended the system we now have incorporating ROTOCONTROL, Advanced Vision Technology and Domino which will benefit Operators across Europe who train in our facility”.

Ralph Beier, ROTOCONTROL and Joseph Fédérico, 5i Conseil

About 5i Conseil

5i Conseil is a team of professionals providing comprehensive expertise in printing processes, packaging, materials and on production management. Geographically mobile, we are responsive to all requests from our customers, including customized training, technical consulting or development. By providing all the tools needed to recruit and train your staff, we prefer the alternating sequences of theory and practice, ensuring better learning. The use of industrial equipment in our two training centers can provide services tailored to your specific needs.
